Title:

Comments: I am a resident of Pinetop/Lakeside since 1969, a member of Tracks, a board member of White Mountain Audubon, a board member of Save Our Park and a frequent visitor on the National forest.

I ask that Alternative 2 of the draft plan be selected.

In particular, I appreciate the limitation on vehicle accessed camping to 300 ft. on either side of authorized roads.

There is a magnificent Douglas Fir (5 ft diam, 115 ft tall) located at the foot of the north east face of Greens Peak that many of us walk to see every year. It is well to prohibit vehicle access near this tree as Alternative 2 appears to do.
