Ladies and Gentlemen,

The Apache Nation do not allow RVs, MCs, jeeps, Quads, etc. on their lands because they recognize the moonscape destruction they cause and the state entity, Arizona, gets the money.

We on the other hand, have sacrificed our entire National Forest (Federal) to be devastated by Arizona State Agency (DMV and AZ Game and Fish Depts) to simply make millions of dollars and not repair any damages resulting. Not one road has been repaired since the Rodeo/Chedisky Fires of 2002! (17 years of constant destruction) - FR #86 is the only road kept up and passable - only because a multi-billionaire, Senator Bob Worsley lives at the Legacy Ranch.

The problem lies within the locked differential gearboxes on the ATVs. What you have done is allow the state to release 40,000 or more rotor-killers onto our Nat'l Forest to make themselves money. These ATVs need to be banned and the ones with "turf mode" permitted. (these can travel on a golf course), without damage. The fees have quintripled from \$5 to \$25 or more -= without a nickel being returned
