Comments: As a hunter i strongly oppose this land swap. Accessing the foot hills of the crazy mountains is hard enough. The elk don't hang out in the deep backcountry with deep snow during hunting season. The land you are about to swap is PRIME elk hunting and swapping it out will further restrict the public's access to hunting. Nobody wants to hike back to treacherous terrain to attempt to bag an elk. I and the hunting community STRONGLY appose this land swap!!! And as a snowmobiler I OPPOSE this land swap. I know exactly what you guys are trying to do. The checkerboard areas in the crazy's keep it from being designated a wilderness area which would COMPLETELY destroy shared use in the crazy mountains. Welcome to the Gallatin National Forest! "Land of Many uses"
