Comments: I am opposed to the land exchange as proposed. The Current land exchange is trading two prime sections of public land that I personally have had many great memories on. Section 8 have a perfected easement and due to the original surveys of the sections a 40' gap exists so there is legal public access to section 4. I personally have spent many days hunting these two sections and have taken a bull elk on these sections. I believe that the public will be loosing access to some of the most animal rich habitat in the Crazies Mountains if this exchange goes through.
