Comments: Please reconsider trading out sections 4 and 8. So very little access to the Crazies in the first place, but even less access to lower-elevation ground. One or two sections are nothing for a wealthy landowner, but for a random citizen it's a vast wilderness. I love that land, with its mix of terrain, vegetation, and wildlife, and I, along with hundreds of other folks -- past, present, and future -- would be devastated if it were lost. Please, please use your considerable bargaining power to negotiate the best deal for the public, not the best deal for the wealthy landowners. Put on your poker face and bargain like a boss! You're holding the cards and there's no reason not to play hardball.
