Comments: TRUMP CAN SUCK MY tongASS

Hello, I am writing to express my concern for the recent legislation on the preservation of the Tongass National Forest in Alaska. I will make this brief. Alternative 1 would be taking the most effective approach to this issue, and as a 17 year old student, I am the one who will have to live with the repercussions of your actions. Please do not let us down, this should not be my problem, I should not have to write this, and I hope you will listen to the millions of youth that depend on the choices that will be decided in the coming months. Thank you.

Sincerely,

Meghan Johnsson
