Comments: ALASKA ROADLESS RULE

Hello

I strongly support the Alaska Roadless Rule, in an effort to maintain the pristine environment of this area for animals and native people. No loud ATV noise, no smell of exhaust fumes, no destruction of plant life and elimination of a serene environment for animals who inhabit the area.

Allowing access to this area will also encourage those seeking to clear-cut the forests.

Hopefully, prohibiting the Roadless Rule will help squelch the opportunities for clear cutting. The logging industry needs to diversify and seek alternatives to wood products.

Thank you for your time and effort.

Joan Anderson
