Comments: Vote Action 1 on Alaska Roadless Rule

To whom this may concern:

Please think of your children's future when you consider the Alaska Roadless Rule and vote "Action 1", keeping the forests intact and don't log them. We have never had so much CO2 in our atmosphere and the world's forests hold billions of metric tons more of it. The forests keep our planet's health in balance and the mismanagement of them will destroy us.

The value of our nation is strongly connected to the health and wealth of the air/food/water/soil that we live and breathe. We now know our ancient forests are one of our most precious resources we manage to keep us healthy.

The world's forests are our planet's lungs that give us oxygen to breathe and we need to keep the forests intact and vote "Action 1" on the Alaska Roadless Rules and keep our forest and do not log them.

Robert Jungmann

CEO/President/Founder of Jungmaven Ltd.
