First name: Nancy

Last name: Magee

Organization:

Title:

Comments: Tongass National Park

Hello:

As a very concerned grandmother and Christian, I implore you to do everything in your power to prevent this rogue government from destroying our planet home, national treasures. We need to do this for our children, grandchildren. We are the stewards of this earth, God's creation.

We must not fail to protect what has been given.

Please, I beg of you. Do not allow roads to be built that would signal the demise of the beauty of Tongass wilderness and with it, our earthly lives. Climate crisis is real.

I want my heirs to live in an inhabitable world.

Thank you,

Nancy Magee
