a Wild Alaska is just what is needed these wild places need to remain, and be left unfettered by our so-called civilization...

We are at a crossroads for our planet, our environment... fossil fuel usage... for which we all bear our fair share..... must not be promoted.... we must focus all our energy, resources, and planning on renewable energies for our clean future.... or don't you have children and grandchildren? I do.....

Our forests must remain as well as a balance to the damage we have levied on our earth.

LEAVE ALASKA ALONE.

RICHARD SCHOEMER
