Comments: Alaska Roadless Rule

This email is to implore you to take the No Action Alternative on the Alaska Roadless Rule to maintain Roadless Rule Protection for the Tongass National Forest. Industrialization of our Public Lands is not in our best interest. These Lands were mandated as Multiple Use: We, the citizens are being pushed out by roads, gates, wellpads and other privatized uses of our Forests and deserts. Please don't continue to "sell us out".
