Comments: Changes Tongass National Forestt Roadless Rule

I oppose removing the Tongass National Forest from the Roadless Rule. Conservation of old growth forests should be a federal priority due to their unique nature and ecosystems. Once they are gone, they are gone. There will be no turning back of the clock or restoration once they are allowed to be damaged, logged, or have roads built through them. I hope to work in conservation in the future, and I want to be able to experience them as nature has made them. I want my descendents to be able to experience them as nature has made them.

Thank you, Loren Hemingway
