Comments: Alaska roadless rule for Tongass National Forest

I am writing to comment on the draft environmental impact statement offering a range of alternatives to roadless management and a proposed Alaska Roadless Rule. The current administration seems bent on destroying all this country's national resources as fast as possible. The roadless rule should be left in place. In other words, alternative 1 should be chosen and NOT alternative 6. Take no action and leave all of Alaska under the 2001 Roadless Rule, including the Tongass National Forest.

I am absolutely disgusted that the Forest Service has put alternative 6 thru as the preferred choice.

Thank you,

Julie Sebby
