First name: Stephen

Last name: Duck

Organization:

Title:

Comments: I am strongly opposed to any commercial logging, mining, or other excoriation of the land represented by the Alaskan Tongass forest. The state of Alaska is being forever changed due to global warming due in no small measure of the parochial opportunistic greed of the corporations wishing to exploit the timber and mineral rights of this wilderness. Pleas stop the reckless grasp for More money. Let the land prosper and facilitate the rebalancing of our fragile ecology.
