Comments: Please allow the Tongass National Park to remain roadless. The importance of this land is not even fully understood yet and if we are truly unsure why would we install a change that we would know would alter it's course? My father worked in a lumber mill, I have worked in a lumber mill, my uncles cut trees in northern Minnesota for many years so I do have some first hand knowledge of the jobs that it provides. In life if we are unsure of a particular decision I say wait to make that decision and often times the answer why reveals itself. There are plenty of opportunities to make the almighty dollar in other lands and in other pieces of earth let's leave this alone until we fully understand and all people can appreciate it's true value.
