First name: Nikki

Last name: Nau

Organization:

Title:

Comments: Please protect our nation's roadless wilderness for economic, social, spiritual, and environmental reasons. Our lives depend on true wilderness. My children deserve a future planet that is thriving, not just supplying us short term resources. Forests globally hold the key to about one-third of the climate change solution. Please make a sustainable decision for the greatest good of all, rather than a decision based on short-term, limited, economic gain. Thank you for your consideration.
