Comments: I strongly urge the Forest Service to keep the Bible Camp facility open for public or private use by re-issuing the permit. It's such a beautiful location! I've been going to that area (Columbine) my entire life- 44 years now- & it has so much to offer. Mt. Graham is so unique in so many ways and the people in this Valley go up there in ever increasing numbers to take advantage of the climate and scenery. By re-issuing the use permit, you're making one more place available for recreation AND the Forest Service would have significant help in maintaining the facility and grounds from the future owner of the permit, whomever that will be. It saves the Forest Service money and labor which is a win-win situation. Please don't waste the opportunity to keep it open and maintained. The Bible Camp facility' has so much potential for good. Please re-issue the permit! Thank you so much for the opportunity to share our thoughts.
