Title:

Comments: I like the idea of a camp to use for reunions, camping to enjoy nature or churches to use as retreats.

My comment is that I NEVER hear of places like this, never knew it existed, do not know where exactly it is located or how to get there. If it is purchased and re-purposed, then PLEASE provide information, lots of information so that people can enjoy the facility and help support this camp. I have encountered this problem having lived in Safford for several years and cannot go to a specific place to get information, usually it is an article about how great an event was AFTER the event has taken place. If you want public support, please notify the public, otherwise it will become another unknown place.
