Comments: Please, Keep the 'Roadless Rule' Protections for the Tongass National Forest

Dear U.S. Forest Service,

I hope you're having a nice day.

These lands were put aside for wildlife and the public. Please, from the bottom of my heart, protect these beautiful lands and the wildlife that depends on them!

I strongly oppose the Forest Service's plan to eliminate "Roadless Rule" protections for the Tongass National Forest and urge you to select the "no action" alternative instead.

Thank you!

Sincerely,

Sue Crossen

Torrance, CA 90503
