Comments: Keep 'Roadless Rule' Protections for the Tongass National Forest

Dear U.S. Forest Service,

You will receive many letters to explain why this plan to exploit some of this countries greatest wilderness is a bad idea. I will simply say that it is nothing less than a war crime, and anyone who supports and furthers it is a war criminal. Make your best judgment, but remember that you are also being judged.

Sincerely,

Brian Carter

Salisbury, VT 05769
