Comments: Keep 'Roadless Rule' Protections for the Tongass National Forest

Dear U.S. Forest Service,

I strongly oppose the Forest Service's plan to eliminate "Roadless Rule" protections for the Tongass National Forest and urge you to select the "no action" alternative instead.

Your proposal to open the door to clearcutting and bulldozing is irresponsible and contributes to climate change. This forest is one of the last remaining "lungs" of the Earth. Each and every tree contributes to carbon sequestration.

The Tongass belongs to all Americans and shouldn't be sacrificed to the timber industry.

Please - think of future generations by selecting the "no action" alternative to maintain "Roadless Rule" protections for the Tongass and Chugach.

Sincerely,

Janet Marx

Port Angeles, WA 98362
