Roadless Rulemaking,

RE: Alaska Roadless DEIS Comment

Dear Secretary Perdue:

I am writing to support the No-Action Alternative for the Draft Environmental Impact Statement on the proposed Alaska Roadless Rule, Alternative #1.

Why? Because if we keep destroying portions of our earth to help us live "better," we will soon have too little earth to live "at all." Human population has become so large that we must consciously control and cut back on our "use" of the earth, lest we "use" it up.

I support keeping the current Roadless Rule protections in place and intact for the Tongass National Forest. You know all the physics and biology reasons that make it important. Those reasons are why I urge you to keep the federal Roadless Rule intact and current protections in place for national forests in Alaska.
