Comments: Comments to oppose modification to the Roadless Rule

Dear U.S. Forest Service,

The Tongass National Forest is unique in north america and should remain undamaged by roads and logging for future generations. A short term view of taking natural resources for monetary gain now at the expense of future enjoyment and the protection of the environment for our children and grandchildren is horrible and should not be allowed by the forest service. Please do not cancel or ignore the Roadless Rule which protects habitats like the Tongass National Forest.

Sincerely,

Monica Cavallaro

Mountain View, CA 94043
