Comments: Comments to oppose modification to the Roadless Rule

Dear U.S. Forest Service,

Climate change is real. Intact forests are part of every mitigation plan to reduce the many negative impacts of climate change. Think of your children and grandchildren - do you want to tell them you did everything you could to preserve and improve the planet's climate or do you want to tell them that you supported short-term profits for politically-connected timber companies?

Go "No Action" Alternative (Alternative 1) and keep the Roadless Rule for the Tongass National Forest.

Sincerely,

Christine Hertzog

Portland, OR 97209
