Comments: Alaska Roadless Rulemaking #54511

Roadless Rulemaking,

RE: Alaska Roadless DEIS Comment

Dear Secretary Perdue:

Couldn't we simply agree that the Trump administration is pursuing a contrary course to the one a majority of Americans choose to follow: preserve our forests and wetlands without which humanity fails in the long run?

I support the No-Action Alternative for the Draft Environmental Impact Statement on the proposed Alaska Roadless Rule, Alternative #1. Please, let's keep the current protections in place and intact for the Tongass. For the sake of Southeast Alaska and the rest of us humans and nonhuman creatures, we need to keep the federal Roadless Rule intact and current protections in place for Alaska's national forests.

Furthermore, the Roadless Rule preserves some of America's best fish and wildlife habitat and avoids wasting taxpayer dollars on timber subsidies. Please let it remain intact.

Thanks for all you do to preserve our natural heritage for present and future Americans, as well as the wide web of nature that we are a (heretofore destructive) part of. It's time to change our ways.

Jane Chamberlain
