Comments: Protect wildlife, keep the Tongass roadless

How many times do we have to protect this same native forest?!? Our last remaining temperate rainforest is a crucial sanctuary for so many species of wildlife. It must be protected.

I urge you to select the "No Action" alternative on the Alaska-specific Roadless Rule instead of the sweeping changes the administration is promoting that would completely remove the Tongass National Forest from roadless protections.

I strongly urge the Forest Service to select Alternative 1, the "no-action" alternative.

Respectfully,

Kathryn Wild
