Comments: Comments to oppose modification to the Roadless Rule

Dear U.S. Forest Service,

Good Morning:

I believe the roadless rule should be modified as it has been used to stifle important forest management. The conservation groups, like Audubon, are myopic and have a one rule fits all approach which does not necessarily translate into good management practices.. If the forest supervisors deem it in the best interest of the forest and its environment to engage in some clearcutting to improve forest health, then they ought to be able to do it. If the roadless rule gets in the way, then it should be modified.

Travis Moffat

Sincerely,

Travis Moffat
