Comments: Wz rec fee proposal

The forests certainly have ideas about how this proposed fee revenue should be used, even while giving the public a blank sheet for ideas. I encourage the forests to disclose its thoughts on using fee revenue, to prime public thoughts and show greater transparency.

Secondly, I encouraged the forests to use collected fee revenue primarily for trail maintenance and site restoration, rather than fee enforcement.

Thirdly, fees inevitably go up over time. The forests show add a timeline in its fee proposal, such as "fee levels will remain fixed for the next (5 or 10 years) while we monitor the effectiveness of the permit system."

Lastly, please remind the public that day use fees may be added to more trailheads in response to use thresholds being exceeded at those trailheads that currently don't require a permit.
