Comments: proposed hiking fees

Hi,

I understand the need to charge hiking/backpacking fees in the Central Oregon Cascades, but I object to the processing fees.

In addition to using recreation.gov, the permits should be available from other sources WITHOUT the processing fees.

And why does it cost more to process an overnight permit than it does to process a hiking permit? Either way, it is still permit processing. It is the same thing! The processing fee should be the same.

thanks
