Comments: Fee change

Good morning,

Fees to use our national forests could be a good idea as long as they are specifically used to maintain and enhance those areas.

My concern would be that some people who regularly use our current free resources may not be able to afford a change. I'd support a program that would waive fees for those who are unable to fully support themselves as well as senior citizens and all veterans.

If this does move forward it would be great if buying a pass was available by app or onsite with a printed ticket.

Would fees be covered if a family had purchased the annual oass?

Thank you,

Brenda Hansen
