Comments: Fee proposal

Hi,

I don't support the new fee proposal. I don't like overused wilderness any more than the next guy, but having to buy a permit to go to the woods really takes the fun and freedom out of it. When I go to the wilderness I go where other people don't go, and I try to go at times when there aren't as many visitors.

Only certain parts of the wilderness areas are overused, and they are mostly close to roads, and all are close to trails. This proposal punishes everyone, even those who never go to the overused areas.
