Don't make it harder than it is for me, and thousands of other people that cant plan hikes around their day off because we don't know when it is.

Everything cost money even going on a hike cost money

Because of food, drinks, gas, ex. Its good for the town the hiker goes to. Start charging for hikes all your doing is losing business, and giving out tickets for people who didn't read there was a fee, or came 100 miles an don't want to go back. Charging for being outside is dumb! All rhe out of state tourist small yowns will miss out because they didn't know they had go pay. Are you going post on Oregon sighns welcome to oregon where you pay to be outside.
