Comments: Opposed to trailhead fees

We are already paying fees to use the forest and each area requires different permits and passes. Use the money already being received to manage the trails! Your mismanagement is not our fault. The fees applied to every outdoor activity are already prohibitively expensive! Hiking should not cost more than it already does with forest passes, parking fees etc. It seems as if you don't want people enjoying nature. Such sad, sad times we are living in.
