Comments: No thanks

On your wilderness fees. I don't know when a person going outside became a big business. But, under this plan, that is what will happen. I'm all for limiting people in certain areas, but if it comes at this cost, that is simply absurd. For far too long we have seen places like the enchantments and Saint Helens, use a lottery system. And while those are as well, at least they don't cost a family of 4 \$66 for a couple of days in the forest. I will not only write to you but also to My local and politicians to let them know how I feel as well. I truly do not know what was worse, this plan or the fact that my tax dollars went to some fool to come up with it.
