Title:

Comments: Objection to Forest Service Fees and Quotas

Low income earners should be able to access wilderness areas.

Earners forced to work a standard work week job should be able to access wilderness areas.

Anybody accessing wilderness areas should not be forced to contribute to Booz Allen so they can continue to assist the NSA in spying on American citizens and continue expanding those capabilities to repressive regimes such as UAE and Saudi Arabia, who use them to quash opposition and imprison and murder dissidents.
