Title:

Comments: Attn recreation fees

While I appreciate there are still details to work out...I am concerned about access to my local community for myself, family and friends

Often hikes and camping are a game day decision ...is there smoke...are there local fires? Etc

Your new system has me concerned that spontaneity of going outside when we want is going to be missed...I already purchase several types of passes a year to use the areas around here....now ...I need to purchase yet another and in plenty of time that there is availability...I also worry that tricky people will figure a work around...

Please help alleviate my fears
