Sirs and Madams,

Like everyone with whom I have discussed this topic, we are incensed that you are going to start charging us for what we moved here to enjoy. We paid a huge premium to live here rather than the many places where we could exist with no natural environments to enjoy. It was part of the contract we thought we had with our locale. We look at it like you are violating our agreement. We acknowledge that things change, but this hurts more than the traffic increases and seeing developments in what was forestland.

There should be a free pass for residents of Central Oregon. We did not invite all of these people to traipse around on our paths.

Gerry Smith - Bend Resident for 11 years.

In the 60's and 70's many wore beads. Some of us wore dog tags.
