Title:

Comments: Strongly opposed to your plan

Your fee will discourage working families from hiking, this is the opposite of what we should be doing. Most of us don't have the schedule flexibility to pick which days we want to go hiking, so this plan doesn't work for us. It also doesn't work for through-hikers who don't have much control over their schedules either. And the costs dissuade people from going. Bad plan in many ways
