Comments: New fees for trails

This will be Pricing families out of there. I am finishing up my 3rd 52 hike challenge. I have close to 180 different trails. By the time you get a national park pass, state park pass, Marion county pass, and/or other fees, it is going to price people that believe in "leave no trace" right out of public lands. Also section hiking PCT is an expensive investment that will only cost more. It is hard to plan 6 months out on your entire summer hikes. Also Weather or life change plans.
