Comments: Comment of fee structure for Willamette Rec area

The fees that are being proposed are outrages! The fees should be capped at a maximum per group per night and per trip. A family of four on a three day overnight trip would be charged \$66, that same family would be charged \$16 for a day use permit. In addition the only way to obtain said permit is through a web site thus you must have an internet connection. This like so may other changes will make this public resource only available to those that have financial means.

I am against these fees since I think they are discriminatory as outlined above.

Regards,

Christoph Schauwecker
