Comments: questions yet to be answered regarding the Recreation fee system

There are many hiking groups in the Bend area who conduct dayhikes into our local wildernesses. Many of these groups have dedicated, leave no trace members. I attended the Sisters meeting and noted that there is no clear answer on whether representatives of these groups can apply for a day use permit for up to 12, or as is often the case, a smaller number. Each applying for a day use permit separately in order to hike as a group will create havoc & isn't practical. Also, what will be the percentage of day use and overnight permits requiring an advance reservation compared to those available the day of or shortly before?
