Comments: Fees for visiting our forests

No fees ... once established, there will always be a reason why the fee needs to be increased soon only those with higher incomes will have access. Look at the fancy equipment of those who use state parks now.

A good example is the birth certificate. From a small fee to help cover costs to becoming major expense.

People voted on tax increases, but have no control over fee increases so State agencies continue to raise fees to generate more income. When was the last time that a fee was reduced or eliminated.

Fees discriminate against those of lower income.

NO FEES !
