Comments: input on fees

Hello.

I regularly hike in National Forests near Eugene, Oregon and support the idea of user fees. In fact, I'd be fine with a fee for all trail access points. It's about time!

Please also consider a fee for dogs, equal to the fee for a person. Dogs in the National Forests are generally off-leash and often off-trail. They create as much or more erosion and trail degradation as their owners. Unlike what I encounter in town, I have never seen a dog owner in a national forest with a baggie for carrying out dog poop. Thank you.
