Comments: New fees

To Whom It May Concern,

I strongly oppose the proposed new backpacking and day use fees in the Mount Jefferson, Three Sisters, and Mount Washington Wilderness Areas as part of the limited entry system. I do not see a need to add yet another layer of fees for public access to public land. I understand and support limiting access through a registration process without an associated fee for Oregon residents. You can control access and accomplish all of the stated goals of preservation without charging a fee. I love Oregon and I chose to live here despite the extremely high taxes and fees already in place. I strongly oppose creating a new fee for Oregonian's to use land that we already own.

Thank you,

Tom Kern
