Comments: Proposed feeHighUseAreas

I generally support the proposal IF:

The funds generated are used for maintenance and support of the designated areas.

AND

Your system does not count day hikers against the quota for overnight BP-ers. This has been a problem in , for example, obsidian falls area; we got a 'nothing available' for camping twice: one time there was one party the second, 3 when we walked thru. The system for Desolation Wilderness, the most heavily used, somehow avoids this issue.

Thank you

Larry & Peggy Bellinger
