Comments: Objection to proposed changes for Central Cascades Wilderness Strategies Project

I object to the proposed limited entry to Mt. Jefferson Wilderness, Mt. Washington Wilderness, and Three Sisters Wilderness. The fees associated with these limited entry permits are monetizing our public resources and restricting access to the wealthy persons who can spend resources signing up early and often for permits. This system heavily favors those who work in jobs with easy vacation time, and this system unfairly penalizes workers who only find out about vacation days a week or two before being able to plan a trip.
