Comments: Proposed fees for hiking/backpacking

Hello,

I am a recreationalist and I love our wilderness here in Oregon. Instead of simply charging more money for use on our trails as a deterrent to keeping people off the trails, would it not make more sense to ask for volunteers and use the labor to build more trailheads and trails and also to help maintain current conditions? I and many others would happily donate our time for current and future generations.

Best regards,

Aaron Redinger
