Comments: Double Taxation unconstitutional

Access to PUBLIC lands for taking a walk should not include a fee. Public already pays tax to fund such government departments. If USFS can't manage it's appropriations adequately, then overhaul the management. Quit propping up ur pensions with all our hard earned private income that is earned with consequence for failure (unlike gov't). I have never seen a Ranger while fishing or hunting here since 2013. Violations and poaching are rampant as violators know no one will check. Quit having pizza/donut safety meetings and get out in the field. Reduce overstuffed management as seen in all gov't beauracracies. You should be ashamed of yourselves to be part of the problem of invasive government. Now double taxing our recreational activities, like walking thru the forests? And to float a river? Unbelievable, unAmerican. Hope the state or federal courts overturn this misguided USFS decision.

Lastly, if u must go further down the Fascist road, at least offer an annual pass so we don't have to pay daily.

Happy Trail\$. Steve Gossell 541 903-1120.
