Comments: Wilderness and now everywhere permit entry

I am completely against charging FEES to go on MY land. I am completely for limited/permitted entry. Limited entry will in time, allow the land to recover from overuse. That's free!

I do not support making it just another money making scheme by the government. So, if it actually costs the \$1 administration fee per permit to administer the program, which I doubt, then that is what it should max out at. NO MORE GOVERNMENTAL FEES FOR PROFIT or as commonly said, to "keep up with operational costs". Lay off staff if need be.

Operate within your budget
