Comments: Permit fees proposed for 2020

Read the article in The Nugget newspaper and understand the need for maintenance and the consequences of land/trail use, but I do have an issue with the fee structure proposed. I agree with my fellow Black Butte Ranch hiker, Carol Redfield, that a group fee like at Pamela Lake or a per car fee is more feasible. Individual fees are messy and time/labor intensive for the hiker as well as government management. We have a responsibility to our environment but individual fees/collection feels like government management overdrive. Elizabeth Cannon, Black Butte Ranch.
